

“I enjoy providing my patients with the kind of high-quality, natural-looking crown and veneer work that was once reserved for the Hollywood crowd.”

—DR. JEFF GARNER, THE SMILE DOCTOR

PHOTOGRAPHED BY DAVID BARTLEY

IT'S COMMON KNOWLEDGE that kitchens are one of the first rooms in a home to show age. An outdated kitchen can devalue the entire home and most kitchens in such a state aren't all that attractive. What's not common knowledge is that, like the kitchens in our homes, our teeth are one of the first physical testaments of age—and often prematurely so. Just as a kitchen is re-modeled and updated, it adds value and improves the look of a home, so too with your smile. Simple cosmetic dentistry procedures can shave years off of your appearance and will most certainly increase your desire to smile. Sometimes a simple whitening treatment is all you need to see dramatic results.

If your kitchen needed a makeover, you would call a professional for advice and consultation. If your smile also needs more of

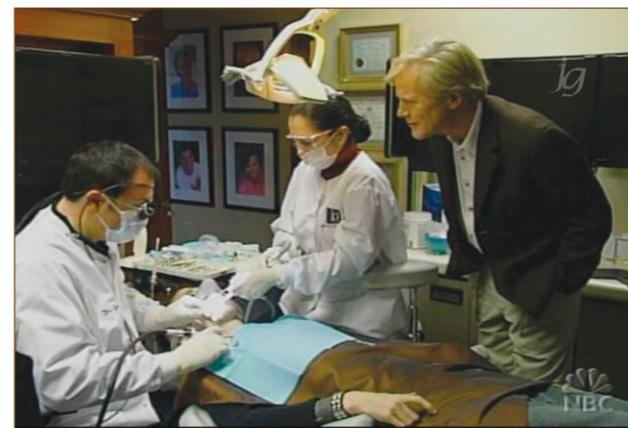

a makeover than a mere polish, you should call a professional for advice and consultation. Dr. Jeff Garner, The Smile Doctor, has brightened and beautified hundreds of smiles by placing over 30,000 veneers and bonded restorations. Dr. Garner is considered one of the nation's leading cosmetic dentists. While his client list reads like a celebrity who's who, Dr. Garner is down-to-earth and devoted, so he offers his services to more than just the Hollywood elite and beauty pageant contestants. Utilizing the latest technologies and developments from something as simple as whitening and

bleaching, to more complex procedures such as porcelain veneers and entire smile makeovers, Dr. Garner will make your smile look as good as a Hollywood socialite's.

DR. GARNER graduated from Harding University and continued his education at the University of Tennessee College of Dentistry and received his post-graduate Certificate in Esthetic Dentistry from Baylor College of Dentistry. Dr. Garner is a nationally featured personality—he's appeared in numerous dentistry publications and national magazines and has made many television appearances—Entertainment Tonight, Dateline NBC, MSNBC and CNBC. Dr. Garner was the only dentist voted as a “Best of the Best” in the Central Arkansas area in two categories—Best Cosmetic Dentist and Best Dentist.

He's consulted magazines including Harper's Bazaar, Men's Health Magazine and People, as well as television networks United Paramount Network (UPN) and The Learning Channel (TLC).

Dr. Garner will make your smile look as good as a Hollywood socialite's.

Keith Morrison of Dateline NBC observes Dr. Garner's artistry.

BEFORE: This 50 year old was severely debilitated.

AFTER: Smile makeover by Dr. Garner completed in just two visits.
